From: Bill Miley
Subject: 3/2/22 meeting item 4, Cannabis businesses and zoning

Hello. I am mostly aware of what exists and what is being considered. As you read you will see my movement to an opinion. Here are my considerations.

Present: we have three dispensaries in the Bryant Business/industrial zone. Plus license for manufacturing and testing.

From public information those businesses seem to be well integrated into Ojai's economy and culture. Our city government has received requests to consider expanding locations for such businesses and consideration of new functions and services within the three dispensaries.

Planning Commission charge:

1. Consideration of new zoning location on east Ojai Avenue.
2. Consideration of new functions within dispensaries.
3. Allow more than three.

It is important to look at the comparison of alcohol beverage selling and serving businesses and those of cannabis serving (no serving) and selling businesses. Many alcohol selling. And many alcohol serving (restaurants serving food). One alcohol bar. One wine bar.

Three cannabis selling businesses (dispensaries) and bunch of retail selling CBD (Cannabidiol) better known as CBD as part of their retail.

The ratio of alcohol businesses to cannabis businesses is weighted heavily to alcohol.

Popular history to me says “weed” is not good for communities to permit. That for many is now in a trash can of discards. Bootleg alcohol really doesn’t exist now and eventually illegal cannabis will lessen as cannabis become more like a commodity.

I read where arrests for driving under body altering substances is almost totally dominated by beverage alcohol consumption. Community problems with legal cannabis is not a concern.

Our city needs to help even-the-playing-field for cannabis.

Competition for cannabis customers is growing remarkably. Port Hueneme city has permitted upcoming two multi-day beach events for cannabis “celebrations”. Oxnard city is on tract to license 14 new cannabis dispensaries (ventura county star).

Please keep the dispensary licenses to three.

Summary:

1. my logic says zoning for cannabis businesses (retail type) should be equal to alcohol businesses. (Recognizing state law restrictions). Providing an overlay zoning seems appropriate on Ojai Avenue east.
2. Allowing nursery growing (indoors) for starter plants seems fair.
3. Allowing consumption lounges also seems fair (but no smoking or vaping allowed matching tobacco non-use).

Since smoking is prohibited in public areas it should not be permitted in cannabis lounges. Secondary smoke exposure is a known health hazard. Smoking contaminates air space.

Please consider my opinions, Thank you.

Bill Miley, MPH, since 1968

Subject: Re: FW: Planning Commission Discussion - March 2, 2022 - Cannabis

Thank you, I did manage to collect a number of signatures in support of both allowing onsite consumption lounges as well as creating an overlay zone to allow dispensaries in C1. They are attached here for the PC. I can speak for 3 minutes just ahead of the discussion item, correct? Just raise my zoom hand at the appropriate time?

Subject: Planning Commission Discussion - March 2, 2022 - Cannabis

Good Evening,

This email is being sent as you have indicated an interest on this matter or are currently within the Cannabis industry. I wanted to inform and invite you all to an upcoming discussion the Planning Commission will be having on Cannabis. At the November 2021 City Council meeting, the Council directed this matter to the Planning Commission for further review and input and a recommendation.

The link below is the Planning Commission agenda and packet which includes a staff report on this matter and attachments (item no. 4). Please feel free to share this link with other interested parties on this matter and listen in on what should be an intriguing and informing conversation at the commission meeting. The meeting is only virtual and if interested in attending there is a link on the front page of the agenda to attend. The meeting is scheduled for **Wednesday, March 2, 2022 with a start time of 6:00pm.**

https://drive.google.com/file/d/1wc-II-RiHy9_3oVG_leHdSKrBpvJpSs/view

Hope to see you there (virtually). Also, if you have any questions on this matter let me know.

Sincerely,

Lucas Seibert

Community Development Director
City of Ojai | CA

PETITION

To Allow Dispensaries on Ojai Ave

To Ojai Planning Commission, Mayor and City Council:

WHEREAS the dispensaries in Ojai are subject to a gross receipts tax of 3%, not to mitigate the cost of enforcement or compliance, discourage consumption, or repair harms from the war on drugs but solely for the purpose of funding the city's budget;

WHEREAS the citizens of Ojai wish to preserve the M-1/MPD zone on Bryant Ave for industrial and light manufacturing uses to preserve a diverse economic base for the city;

WHEREAS the city of Ojai wishes to address ongoing climate emergency concerns by encouraging the use of public transportation, walking and riding bicycles;

WHEREAS the three licensed Ojai cannabis retailers have been operating safely, in harmony with neighbors, and without creating harm or nuisance since 2017;

WE THE UNDERSIGNED residents of the city of Ojai petition the Ojai City Council/Planning Commission to designate an overlay zone (sensitive to required buffers around schools and daycare centers) and allow the existing licensed dispensaries to relocate to the C1 zone primarily on Ojai Ave. consistent with urban planning principles of appropriate designated uses and

PETITION

To Allow Onsite Cannabis Consumption in Dispensaries

To Ojai Planning Commission, Mayor and City Council:

Whereas the three Ojai cannabis retailers have been operating peacefully, in harmony with neighbors, and without creating harm or nuisance since 2017;

Whereas a safe and legal space to consume certain types of cannabis does not exist for many people living in apartment complexes, assisted or multifamily housing; and

Whereas the citizens of Ojai demand an alternative to bars and alcohol tasting rooms for places to socialize;

We the undersigned petition the Ojai City Council to allow on-site consumption of cannabis in licensed dispensaries, provided that: 1) no alcohol sales will occur onsite, 2) no one under 21 may be permitted in the consumption area, 3) odor controls will be in place to mitigate any potential nuisances and 4) individual consumption limits will be enforced and protocols will be in place to protect the public health.

Subject: Shari , Please forward this to the staff and council memebers , and I wish to speak on the zoom city meeting Cannabis Discussion /Planning from SLCC

Hello City council members and the planning Department .

I and SLCC would like to be included in the discussion on general planning and future of cannabis retail and other related cannabis activities here in the Ojai Valley. We are the original legal access to medical cannabis and have helped many in our valley and beyond . . As you all know by now , the sky did not fall and the opening of cannabis activities did not increase teen use but lowered it statewide. Car fatalities did not go up but down as well and of course our last two years have been a real challenge with covid . I wish to thank the city manager for the favorable report.we received a few months back . We three retailers help keep the lights on at city hall with the public approval of the 3% override fee on our monthly gross . And holding the city fee at 3% and not increasing the city fee at this time . We, and the other cannabis operations and operators are still facing challenges that reduce our profitability such as not being allowed to have banking and the restriction of the 280e IRS rule on lacking the ability to write off expenses as other businesses get to . The state is now along with other cities and counties considering reducing their approved fees to further assist the cannabis industry's growth and combat the black market .

A recent study was done by the state of the un-regulated/ black market flower , more than 80% **failed** for heavy metals or worst pesticides, and it is well known that exposure to pesticides is a possible road to a cancer related health problemSo the pricing of tested cannabis needs to be as low as possible to compete with the black market pricing which we know will not ever go away completely . So the more we accept the related permitted market at any level , we will make a safer environment for all of us , and give us and the city the monetary benefit and not the people who don't follow the rules and pay their fair share to assist the regulated market to growand make our valley safer for all . In closing , This is what I hope and imagine to be wonderful , is we could be anywhere we want to be , just like other businesses(On Ojai Ave , not restricted to the eastside of Futzon towards the mountains. Be able to be more profitable and be able to have special events, with cannabis consumption either at our retail locations or events . Be allowed music concerts with cannabis sales on private property eventsinvite only , not open to the general publicat this timeYou all certainly most likely are not ready for public parks or city properties to be used as any type of cannabis event until the Federal Control Substance Act is modifiedSo let's bounce around concepts to achieve what we both want.....sustainable growth , other cities will soon be a major challenge for all of us in the cannabis sector here in the valley

And we here at SLCC have been hobbled once again with the recent ruling for the SLCC membership civil lawsuit at the appellate level, which by the way , is not publicly published for I can only guess why this was done . Once published , we will have quite a few Oja valley residents and City of Ojai residents really angryJeffrey Kroll (President/CEO)

Subject: Support for cannabis consumption downtown

Hi Sheri,

I heard the planning commission is meeting tonight to discuss permitting a cannabis consumption space in town. I submit my enthusiastic support.

Cannabis is a long-maligned plant with immense benefit for society. In the not-so-distant future we will look back on this era of cannabis-prohibition with some level of shame and embarrassment. What were we so fearful about?

Breaking through the stigma wrought by decades of vilification is about more than just legalizing a fun new substance, it's about equity and justice. Too many people are still imprisoned because culture has yet to catch up with legality, part of restoring justice is cutting through the stigma. We can't do that when our dispensaries relegated to the industrial park and no place for enjoyment exists outside of our homes. The current arrangement perpetuates injustice. Simply put, we need to talk about cannabis.

In the town of health and healing, mountains and magic, the plant belongs on main street. As a veteran, cannabis has been an instrumental part of my life since parting from service. I would love for you to read my essay about cannabis and justice here: <https://petedeneen.world/on-cannabis-and-justice/>

Thank you for your consideration,

Peter Deneen

Subject: Public Comment -Cannabis Sespe Creek on Ojai Avenue

From: Jason Matthys
Sent: Thursday, March 3, 2022 9:58 AM
To: Shari Herbruck
Subject: Sespe Creek on Ojai Avenue

Hello Ms. Herbruck,

I am writing you today in support of Sespe Creek Collective's proposal to open a cannabis lounge on Ojai Avenue.

Sespe Creek Collective is a quality establishment, and it is safe to infer that any business operated by them on Ojai Avenue will be a positive contribution to your community.

Chelsea Sutula cares about the community of Ojai. She proposes to open a cannabis lounge on Ojai Avenue out of a desire to enhance her community by creating a space where neighbors can enjoy cannabis, together.

Cannabis lounge permits exist in California state law, in order to create safe spaces for people to consume cannabis. They also provide an alternative to alcohol establishments.

The job opportunities created by a new business opening on Ojai Avenue would be a welcome enhancement to the local economy.

Cannabis consumers have long been treated with an unfair bias. Those who consume cannabis are valuable members of your community and they deserve a space to socialize.

Thank you for your consideration,

Jason Matthys

Subject: Cannabis Lounge

I am a resident of Ojai and request the Planning Commission create a cannabis overlay zone that would include both Bryant Circle and the east end of Ojai Ave, still observing the required 600 feet buffer from schools. It's high time our dispensaries were treated like the normal retailers they are. The 3% gross receipts tax levied on them is meant to replenish the city's general reserves, so why not allow the dispensaries a chance to capture more revenue for the city by granting them more visibility on Ojai Ave? That's where retailers belong.

And while you are at it, please consider adding cannabis lounges as an approved land use wherever bars are allowed. Research has shown that cannabis is less toxic and less intoxicating than alcohol. Isn't that something we also want to promote?

Thank you
