RE: Item 3 on September 7 meeting agenda – Love Social Café CUP – Amplified Music

I noticed that the recommendation is for a “denial” of Love Social Café’s request to amend their CUP to include amplified music on their front patio.

Three points could be considered that may allow this to be approved:

- 1) A compromise – allow amplified music on the front patio only up to 7:30 P.M. An early time to stop the amplified music should not cause a problem in the neighborhood.
- 2) Limit the number of days per week/month or specify weekends only, etc. Non-school nights?
- 3) This is the front patio which fronts a busy main street and faces or is adjacent only to other commercial businesses. If this request was for their back, back patio, I could see neighbor issues, but, this is way upfront completely surrounded by commercial buildings.
